

We are pleased to announce the recent merger of **Stanger Industries** and **AllStar Plumbing**. Our two companies have worked together on numerous projects over the last 10 years and have developed a solid partnership. We determined that it would benefit both firms to become one united team and therefore Stanger Industries reached an agreement to purchase AllStar Plumbing effective January 1, 2010.

Our goal is to provide the same **Precision Performance** that both companies have been noted for in the past. We can now offer a more complete spectrum of mechanical services to cover all areas of HVAC, Refrigeration, Plumbing, and Process Piping.

Stanger Industries was founded over 28 years ago and we have developed a reputation for Quality, Honesty, and Dependability. We have installed everything from 1,200 ton Chillers to 600HP Steam Boilers. Our extensive experience with virtually all types of mechanical systems is our greatest strength.

We sincerely appreciate the valuable relationship we have formed with the Mechanical Contractors Association and we look forward to partnering with the MCA into future.
